# Welcome to Fall 2022 Dairy Goat Sale

Greetings producers, consignors and buyers:

With the demands of CAE negative goats increasing, we are once again continuing to break out the Tested CAE negative does and doelings for this sale.

With profits being squeezed thin by ever rising costs, its important that your herd be on its best health, and we feel this is a good way to help producers do that.

Though the catalog looks thinner than usual, we feel we have some excellent quality animals available for sale, and we invite you to come bid with confidence

## 2022 Commercial High Grade Buck Standards:

- All Buck Dams must be production does on Official DHI Test, with proven production of 3000# in 305 days.
- All Buck Sires must be a known registered production sire or previously approved CSDG Commercial Buck.
- All Bucks must be inspected, tested CAE negative, and if all ancestry records are judged adequate, will be officially tattooed by CSDG. This tattoo will be a lifetime mark that will be used to record the buck's career.
