Welcome to Fall 2023 Dairy Goat Sale

Greetings producers, consignors and buyers:

Our fall sale features some excellent quality animals, including the herd dispersal of a top quality operation who lost their lease.

We are continuing to break out the Tested CAE negative does and doelings with the long range goal of accepting only tested animals in the near future. Our producers see the importance of herd health and are taking steps as they are able to meet that goal.

We invite you to come bid with confidence.

2023 Commercial High Grade Buck Standards:

- All Buck Dams must be production does on Official DHI Test, with proven production of 3000# in 305 days.
- All Buck Sires must be a known registered production sire or previously approved CSDG Commercial Buck.
- All Bucks must be inspected, tested CAE negative, and if all ancestry records are judged adequate, will be officially tattooed by CSDG. This tattoo will be a lifetime mark that will be used to record the buck's career.
- All bucks tattooed will not only qualify to produce future Commercial HG bucks, but are automatically eligible for future CSDG sale, the same as registered bucks.
