Welcome to Fall 2026 Dairy Goat Sale

Greetings producers, consignors and buyers:

Our fall sale features some excellent quality animals from CAE negative herds & CAE prevention herds.

The board is working hard, looking at the doelings before the sale to keep our quality high.

This sale is loaded with quality.

We invite you to come bid with confidence.

2026 Commercial High Grade Buck Standards:

- All Buck Dams must be production does on Official DHI Test, with proven production of 3000# in 305 days yearling, 4000# in 305 days mature.
- All Buck Sires must be a known registered production sire or previously approved CSDG Commercial Buck.
- All Bucks must be inspected, from CAE free herds. CSDG defines CAE Free Farms as those testing completely negative at least 3 times, at least 3 months apart and annually thereafter. If all ancestry records are judged adequate, buck will be officially tattooed by herd owner. This tattoo will be a lifetime mark that will be used to record the buck's career.
- All bucks tattooed will not only qualify to produce future Commercial HG bucks, but are automatically eligible for future CSDG sale, the same as registered bucks.

Other Consignment Guidelines:

REMINDER: All Non-registered animals must have scrapie tags

- Does over 4 yo not accepted unless herd dispersal or registered with qualifying records.
- If selling does as bred, must be confirmed.
